Detailed Action

1. Claims 1-8 are presented for examination. This office action is in response to the application filed on 6/23/03.
2. Applicants are requested to update the status of the related U.S. patent application referred on page 1 in the application filed (i.e. application Serial Nos. 10/073,738), accordingly (e.g., U.S. Patent Application Serial No. ####,### filed Sept. 07, 1990, now abandoned; ..., now U.S. Patent #,###,### issued Jan. 01, 1994; or This application is a continuation of Serial Number ####,###, filed on December 01, 1990, now abandoned; ...etc.). Also applicants are requested to include the status of the related U.S. applications or patents in the CROSS-REFERENCE TO RELATED APPLICATIONS section and in any other corresponding area in the specification.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on 9/30/03 is being considered by the examiner.

Claim Objections

4. Claims 1 –8 are objected to because of the following informalities:
As to claim 1, in line 6, “a” should be deleted before “second” for clarity. In line 8, --from-- should be added before “the storage”. In line 9, it appears that –the—should be added after “to”. In line 26, it appears that “the” should be deleted before “information”.

As to claim 5, in line 2, "the processing" should be changed to --a processing--. In line 5, --a--should be added before "first" for clarity. In line 8, "the" should be deleted after "identifying". In line 14, it appears that --destination--should be added before "storage". Appropriate correction is required.

DOUBLE-PATENTING

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-28 of U.S. Patent No. 6,363,385 and claims of 1-28 of U.S. application No. 10/073,708. Claims of patent No. 6,363,385 and application 10/073,708 contain every element of claims 1-8 of the instant application and as such anticipates claims 1-8 of the instant application.

This is a provisional obviousness-type double patenting rejection (10/073,708 only) because the conflicting claims have not in fact been patented.

Allowable Subject Matter

7. Claims 1-8 are allowable if overcome double patenting rejections and claim objections.
